"Bashkir State Medical University is the oldest leading medical university in Russia. Bashkir State Medical University is ranked among the 10 best Russian Medical Universities. For its low-cost tuition fee structure and easy admission process Bashkir State Medical University becoming popular among international students for medical studies".

Bashkir State Medical University is one of the top Universities of Russia to study medicine. It is considered to be the center of medical and pharmaceutical science of Bashkortostan Republic. This University is located in the Ufa City. For the last 80 years, Bashkir State Medical University has been training specialists for healthcare, scientific, and pedagogical work in the field of professional medical and pharmaceutical education of the Russian Federation. Among the Indian students, BMSU is one of the popular Universities for many years to pursue MBBS in Russia.

The faculty of BSMU has famous scholars and medical practitioners who take care of teaching, medical, scientific and innovative activity. The University retains the study material and technical resources, training facilities, and a large library stock.

DEAR STUDENTS

We are glad to welcome you to Bashkir State Medical University! Our university is the center of medical and pharmaceutical sciences of the Republic of Bashkortostan. For more than 85 years our institution has been successfully training specialists for health care, scientific and pedagogical work in the sphere of professional medical and pharmaceutical education of the Russian Federation.

Scientists of Bashkir State Medical University successfully represent our Republic and Russia at the international events in different fields of natural sciences.

University faculty consists of famous scholars and medical practitioners who are involved in teaching, medical and scientific activities. BSMU possesses material and technical resources, training facilities, and a large library stock. BSMU is famous for its schools of surgeons, oncologists, cardiologists, morphologists all around Russian and world medical institutions.

Thanks to the international summits of SCO and BRICS, which were held in the capital of the Republic of Bashkortostan in 2015, Ufa became a new congress center of Russia. Today we are at the center of Russian and international medical events. Summits gave impetus to the development of cooperation with China, Kazakhstan, Kyrgyzstan, and strengthening cooperation with leading universities of Germany.

Nowadays our students, physicians and professors are being integrated in international practice, our scientists are conducting joint research on topical problems of medicine.

We are glad to open our doors for new students from all over the world, and welcome opportunities for international cooperation in educational, scientific and innovative work.

V.N. Pavlov
Rector of BSMU
Corresponding Member of the
Russian Academy of Science

INDIA-RUSSIA RELATIONS

Indo-Russian relations foreign policy are the bilateral relations between India and Russia. Russia and India both term this relationship as a "special and privileged strategic partnership". Owing to the bonhomie shared by the countries' respective leaders, Prime Minister Narendra Modi and President Vladimir Putin, the bilateral relationship has seen further growth and development. Traditionally, the Indo-Russian strategic partnership has been built on five major components: politics, defense, civil nuclear energy, anti-terrorism co-operation and space

The Medical education in Russia has been one of the major reasons for healthy and long term relationship between India and Russia.

**According to FORBES,
Ufa is the best city in Russia for
business among cities with a
population of over one million.**

Ufa is the capital city of the Republic of Bashkortostan, Russia, and the industrial, economic, scientific and cultural center of the republic. As of the 2010 Census, its population was 1,062,319,[8] making it the eleventh most populous city in Russia.

According to Forbes, in 2013, Ufa was the best city in Russia for business among cities with population over one million. Many urban enterprises engaged in oil refining, chemistry, and mechanical engineering reside in Ufa. Additionally, the economy of Ufa is composed of many fuel, energy, and engineering complexes. Ufa is home to about 200 large and medium industrial enterprises

Ufa is linked by railways to the rest of Russia, having a railway station on a historic branch of the Trans-Siberian Railway. Ufa is the only city connected to Moscow by more than one federal highway. The M7 motorway links the city to Kazan and Moscow and the M5 motorway links Ufa to Moscow and to the Asian part of Russia.

The Ufa International Airport has international flights to Turkey, Tajikistan, Egypt, Azerbaijan, Uzbekistan, and Cyprus as well as domestic flights to many Russian cities and towns, including Moscow.

SCIENCE AND INNOVATION

Bashkir State Medical University is a large scientific center, where basic and applied research, experimental and clinical testing are conducted. Successful results of performed research are actively introduced into educational process and healthcare work.

The scientific and innovative activities of the BSMU, financed by funds from the state budget and borrowed funds, are planned in accordance with the established scientific programs or agreements, and initiative search research - in accordance with thematic plans approved by the academic council. The university's academic council also approves research plans.

The main goal of the scientific and innovative activities of the BSMU is the development of fundamental and applied scientific research, experimental development in priority areas of medical and pharmaceutical science, as well as information-analytical and expert support of scientific work of the university.

Scientific infrastructure of BSMU includes:

- Central Scientific Research laboratory;
- Cell Culture laboratory;
- Biophysics laboratory;
- Biochemistry laboratory;
- Radiology laboratory;
- Laboratory for experimental surgery;
- Vivarium;
- Scientific research institute of rehabilitation medicine;
- Scientific research institute of oncology;
- Scientific research institute of new medical technologies.

UNITED CENTER OF SIMULATION-BASED TRAINING

BSMU United Center of Simulation-Based Training was established according to the government decree of the Russian Federation № 1069 from 21 December 2011 "On financial support for the foundation of training simulation centers in federal state budgetary institutions".

The Center of Simulation-Based Training structurally consists of the following units: the Obstetrics and Gynecology unit (Noel 3 and Noel 4 robot simulator of birth activity); the Anesthesiology and Resuscitation unit (tracheal intubation dummy, CPR dummy, SimMan and iStan critical state dummy robots); the Pediatrics and Neonatology unit (robot computer simulator of a year-old child Meti, robot computer simulator of a 5-year-old child Meti, artificial lung ventilation devices Savina 300, Sophie), which includes the room of general care pediatric manipulations, the room of cardiopulmonary resuscitation in children of different ages, and the room of cardiopulmonary resuscitation in the birth hall (incubator transformable, premature baby simulator).

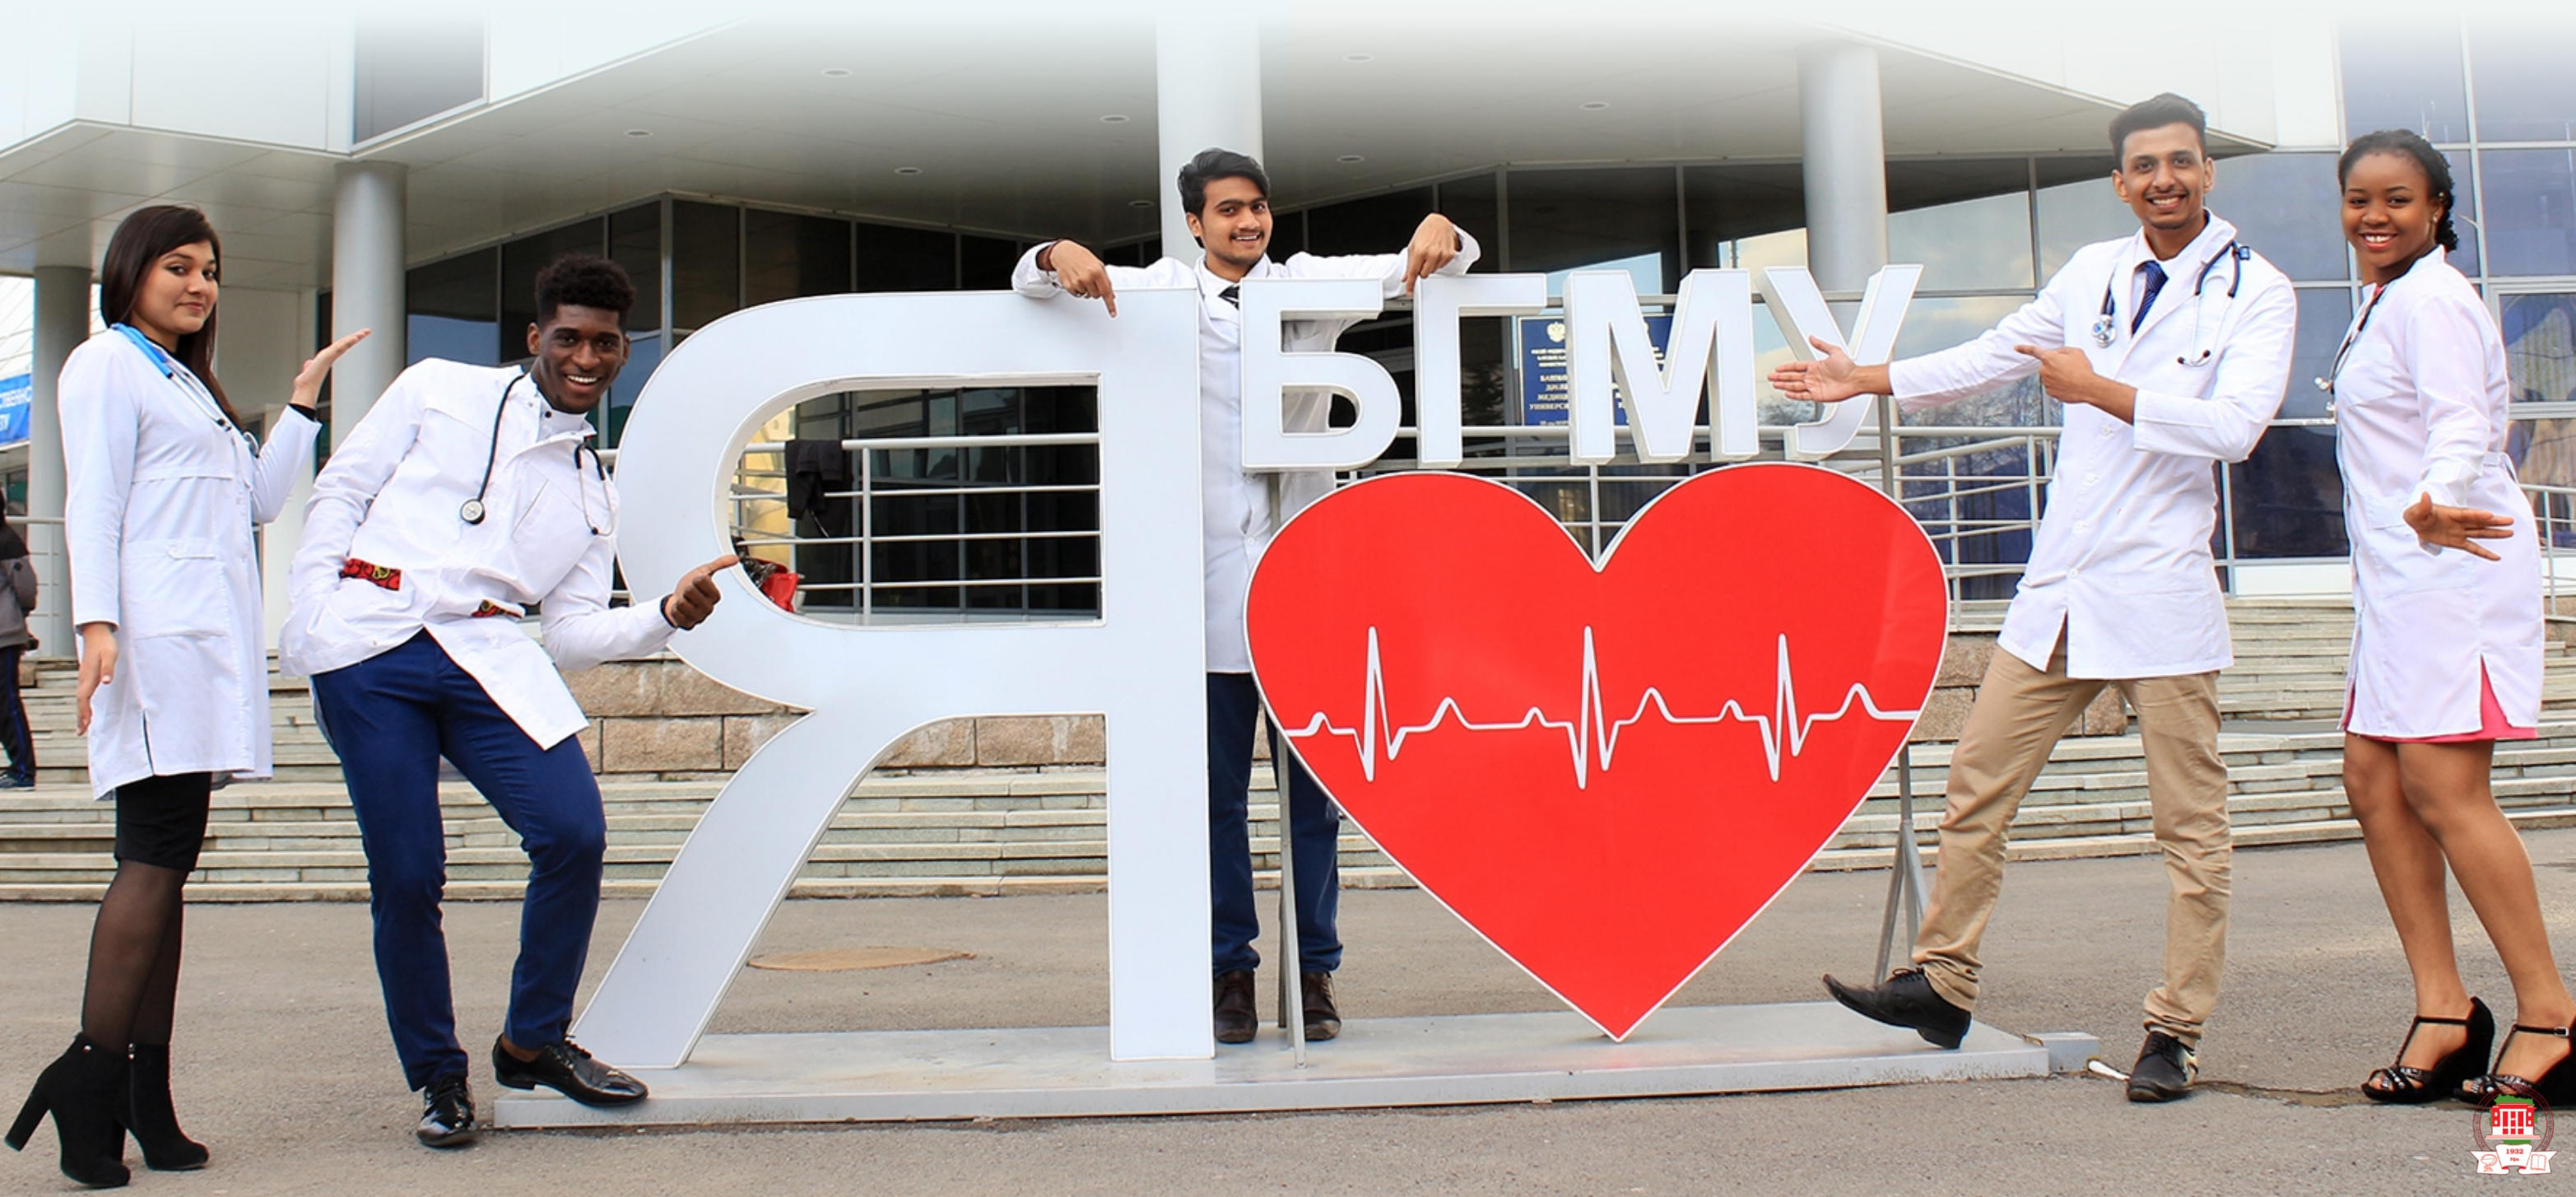

BSMU WITH INDIAN STUDENTS

The medical education in Russia has been one of the major reasons for healthy and long term relationship between India and Russia. Bashkir State Medical university Pioneered educational programs with Indian students in 2005. Quality education and talented faculties made BSMU favorite for Indian students. Special practical sections and educational patterns were Introduced for the Indian students. In sight of BSMU In academics and extra curricular activities of Indian students contributed in betterment of medical system of India.

VACATION HOSPITAL PRACTICE

Bashkir State Medical University have contract with Russian hospitals across Bashkortostan and Indian hospitals. We are sending our students to cities like Sterlitamak and Salavat for summer practice sections. Students got opportunities to practice in the respective departments they are interested. In India our students practiced in hospitals providing CPOP(clinical practice and observation program) this program gives Indian students chance for practicing in their natives hospitals and thus improve their communication and practical knowledge with Indian patients. we are so proud that through this project 15 students from our university got membership from American heart association(AHA) in BLS. Indian hospitals, that provide program gives Indian students chance for practicing in their natives hospitals and thus improve their communication and practical knowledge with Indian patients.

ACADEMIC ACHIEVEMENTS

Performance of Indian students in competitive programs always make BSMU proud., We are supporting Indian students in state level and National level Olympiad, Conference & Different Competitions.

Emergency patient care Olympiad was conducted in inter university level. 96 % of Indian students participated in the Olympiad . Two consecutive years Indian students won the title.

Department of Russian language of BSMU organized Olympiad in Russian language and linguistic festival. Participation of Indian students are above 86 % . They shown an excellent performance in both events.

Students international AIDS conference was introduced in inter university level, Indian students actively participated in the conference. Indian students from other universities also participated through live video conference.

Indian Students of BSMU are showing active participation in various competition conducted in different universities such as Physics Olympiad, Aids conference in Chel-yabinsk, surgery Olympiad in Ryazan

International Surgery Olympiad was conducted by BSMU Indian students shown great performance along with other International students. Indian students rewarded special prizes for their performances.

EURASIA CONGRESS OF UROLOGY – 2019

In the year of 2019 BSMU organized Eurasian Congress of urologist. For the event we invited urol-ogist surgeon Dr. Naveen Chandra Acharya from India. Our Rector Dr V.N Pavlov inaugurated the event and gave various presentation over the emphasized topics of urology.

The Indian students of BSMU attended this prestigious event with great interest and gained the seeds of knowledge from the high-brow gathering.

The presentation were related on the controversies of benefits and flaws of robotic surgeries over laparoscopic surgeries. The laparoscopic and robotic surgeries were being live telecast from the clinic of BSMU to the Congress Hall and the questions were raised on board.

Later we organized a special intellectual conference with Indian students and the Indian delicate Dr. Naveen Chandra Acharya where Our rector explained the student living quality, academic structure and future plans for the summer practice student exchange program which proved to be a great success so far.

Apart from getting intellectual knowledge this conference proved beneficial in improving the bonds between the countries as well. At last the conference proved that the secreting or hoarding of knowledge or information may be an act of tyranny camouflaged as humility.

ACADEMIC ACHIEVEMENTS

Recently after the declaration of results for the foreign medical graduation exam 2019 conducted by MCI (Medical Council of India), graduates from Bashkir State Medical University have shown their flawless talent by acquiring excellent results. Our pass percentage is 66.6%. The result purely reflects the hard work and dedication of the students and also deliberately speaks about the quality education of BSMU. Our faculties are working hard for the betterment of skills of our students, which can give them better opportunities in their native countries.

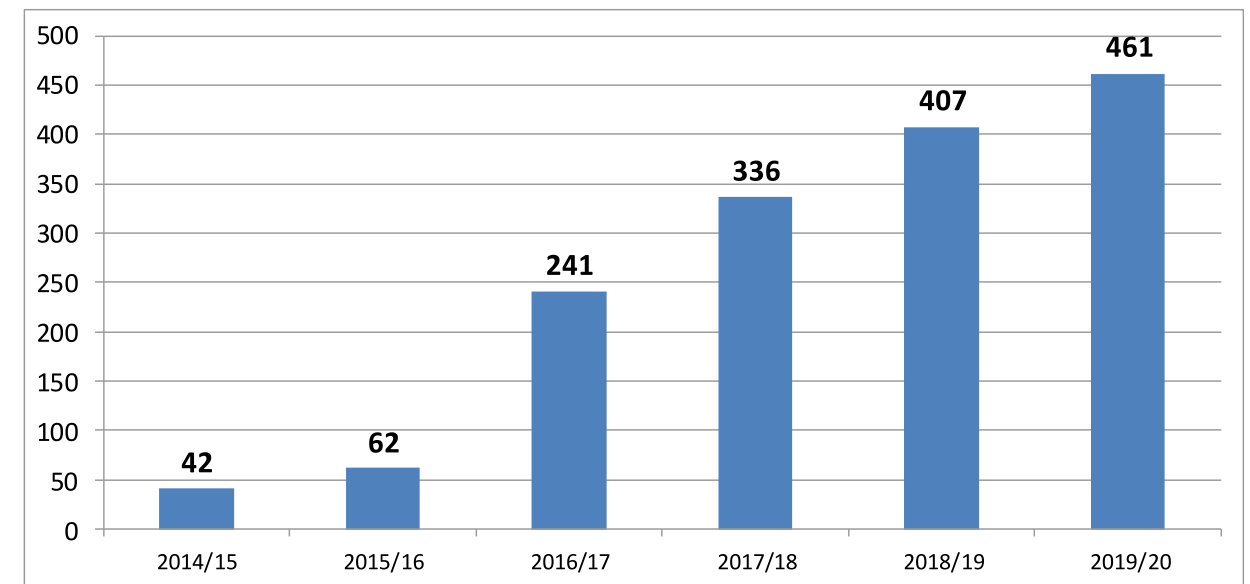

As invariably BSMU focuses on student's career after the graduation, therefore BSMU planned to support Indian Students for FMGE. BSMU signed contract with Indian Institutes and facilities. As a result three reputed institutes are giving master class in our university. Our alliance with these institutes helped the students to pass with flying colors in the license examination of Indian Medical Council.

FMGE Results- 2019

Pass Percentage is 66.6%

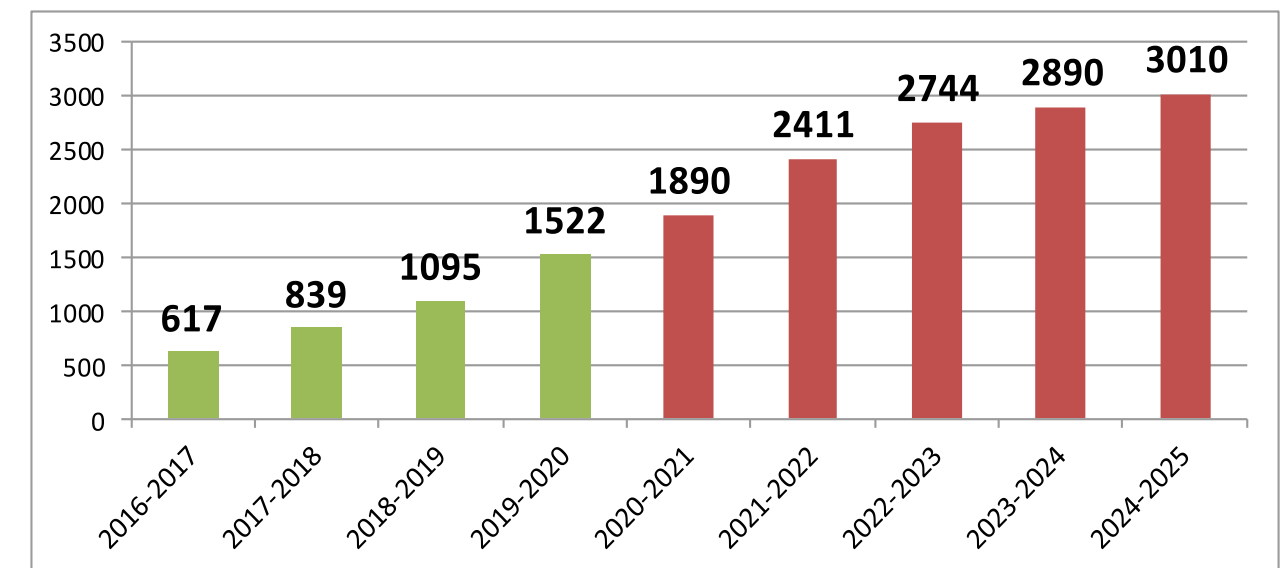

EDUCATIONAL EXPORT

The number of Indian students are constantly growing

We offer different level of educational programs for international students. Our graduates are on the front lines of medicine and science serving individuals and populations in healthcare industry in Russia and globally. We educate and train the next generation of doctors, researchers in healthcare field, and other healthcare professionals.

Our Mission is to improve the health, wealth and wellbeing of the people of our Republic of Bashkortostan, Russian Federation and the world. We have established ourselves as a world-class place to learn, research and innovate. We collaborate with the Ministry of Healthcare of the Russian Federation, Ministry of Higher Education and Science of the Russian Federation, Professional Societies and Healthcare industry as well as Medical Councils and health authorities of many countries.

Our plans for Educational Export—Expected Number of International Students

INTERNATIONAL MEDICAL EDUCATION FORUM

ANNUAL INTERNATIONAL MEDICAL EDUCATION FORUM

was being organized at the campus of BSMU. The faculties were being invited from India with Arise Medical Academy.

The forum helped the Indian students to get a detail idea about present and future perspectives of medical education in different countries, where they can choose their specialty and prepare accordingly for the license exams of the respective countries.

Besides the conference itself, we also provided an opportunity for ambitious students to get Basic and Advance life support provider certificate from American Heart Association and Summer medical practice in renowned multi-specialty hospitals in India.

WINTER MED SCHOOL PROGRAM

WINTER MED SCHOOL PROGRAM -2019

we know after completing MBBS students have to go through the competitive screening test to get their license to practice in India. To help students clear their exam in first attempt we Invited guest Lecturer from Arise Medical Academy conducted a Winter Med School Program to give students extra time and guidance to train and guide students for their FMGE screening test

. The Winter Educational Med school conducted from 3rd to 9th February in Subjects Anatomy and biochemistry. The coaching given by Dr Azam Mohammed Prof from India helped students in understanding the subjects well . He not only gave the students academic guidance but also guided them to know about career options and right goals as per their interest . Made learning fun and easy. The Dr Azam Mohammed visited the Anatomy museum followed by a meeting With the Rector , vice rector and Dean to discuss important issues aimed help students in academic and personal development , to help students ,different kinds of exchange programs for students and staff .

EXTRACURRICULAR ACTIVITIES - SPORTS

Indian students of BSMU are keeping the spirit of Cricket enthusiasm and charisma away from the nation as well. The university is organizing various tournaments like Ufa premier League etc. For letting the students participate and helping them showcase their skills in the events for the pinch of resemblance of the Indian gully cricket. Particularly the university rented a stadium for the practice session of the teams and for organizing their tournaments as well.

CRICKET

FOOTBALL

BADMINTON

Indian students of BSMU are constantly participating in state level and national level badminton competition. Therefore we provided them with the best of the amenities for their practice so that they can improve their performance on court constantly.

VACATIONS

Vacation program: BSMU is persistently organizing various sports events during the vacations for the less athletic students to indulge them in numerous physical activities. We are organizing events for swimming, playing volleyball, vacation camps, ice skating and other winter sports events

EXTRACURRICULAR ACTIVITIES - CULTURAL

India is a country of dynamic culture, and every Indian celebrates many festivals wholeheartedly throughout the year. Every festival is unique in its way. Celebrating them while you pay a visit to the country's culture is a great chance to explore the prosperity of Indian culture and heritage.

Henceforth we celebrate various Indian traditional events like Republic day, Independence day, Holi, Diwali with great enthusiasm to inculcate the spirit of brotherhood among us. We support wholeheartedly Indian students' traditional show-case in the form of dancing and singing on various events inside and outside the university premises.

LAURELS OF BSMU FROM INDIA

Moving on to the next year in 2019 another Indian student Miss Furqana Qirshid was nominated for the competition of Miss International UFA. Personifying the true meaning of beauty with brain and deliberately concerning about each other she won the title of Miss Friendly in the event

As it is wisely said "Leadership is based on inspiration, not domination; on cooperation, not intimidation." BSMU-Press Team works in the leadership and guidance of Meganathan Sumeshraj. BSMU-Press Team is one of the leading social platform of university for Information regarding various events happening inside and out-side the university. BSMU-Press Team also organizes various Olympiads and conferences for the students of BSMU.

Student from India Khan Mohammad Anas Atik procured the marvelous title of best International student of 2019 of Bashkortostan. His selfless works in the field of medical volunteering and strong academic foundation and immense amount of hard work makes him an astonishing student. He also comes within the top 15 International student of the Russian federation.

In the year 2017, two of our Indian students took part in the prestigious Mr. BSMU competition namely Shubham Shar-ma and Yogesh chaudhary. For the first time in the history of BSMU Shubham sharma of India won the esteemed title of Mr. BSMU 2017. And became the first Indian as well as international student to beg this title.

Once again up lately in the year 2019 the astounding event of Miss BSMU was organized and one of our Indian student Miss Yamini Chaudhary participated enthusiastically in it. With her sensible style of representation and style of enchantress she became the second runner up for the event.

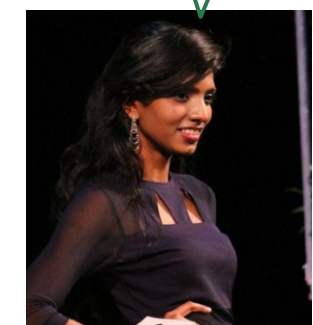

Moving on with the series of astonishing events in the year 2018 one of Indian student Miss Rolly was nominated among the rest for the competition of Miss International UFA. With her immense dedication and stunner looks she scooped the title of Miss Exotic at the event making her stand in the event.

In the year 2018, once more two Indian students took part in the Mr. BSMU competition namely Pankaj and Mirza quassain Raza . With their astonishing performances and a very tuff competition Pankaj won the second runner up trophy.

In the year 2019, Sumit Babu participated in the Mr. BSMU competition and showcasing his dancing skills entertained the audience and put his best in the competition. He created an environment of charm and happiness in the hall of theatre opera.

The astounding contest of Miss BSMU was organized in 2018 and one of our Indian student Miss Swezel Fernandez took part in it. With her exotic charm and aura she became the second runner up for the event and made the evening memorable for all.

FUTURE VISIONS

Bashkir State Medical University is looking forward for a healthy relation with Indian students. Our aim is to provide quality education, and thus give talented doctors .Our future plans include students exchange program, faculty exchange programs , observation programs. We already have collaboration with many hospital across India in top cities (i.e Delhi, Uttar Pradesh, Kerala, Tamil Nadu, Bhopal, Haryana, Hyderabad). In future we are looking forward for many collaboration with Indian hospitals and faculties practice with fellowship. Online lectures of reputed faculties from India is one our future project .This lectures along with our academic sections can help Indian students for cracking FMGE exams with good results.

CONCLUSION

Bashkir State Medical University is always happy with the performance of Indian students in Academic , cultural and sports activities. They always gives their best in competitive programs , their involvement in international Conferences and Olympiads is very impressive .We are ready to help and support our students in any activities that will improve their knowledge and skills .our future plans are focused on improving the practical skills of students that can help them to compete with students of native Indian medical universities. We are appreciating the hard work of students in every activities that made our university best .

*Well,
we can absolutely say that our
students will never forget such
a beginning of their medical career!*

WELCOME TO BSMU!
